Department of Computer Engineering
MNIT

Submitted By:
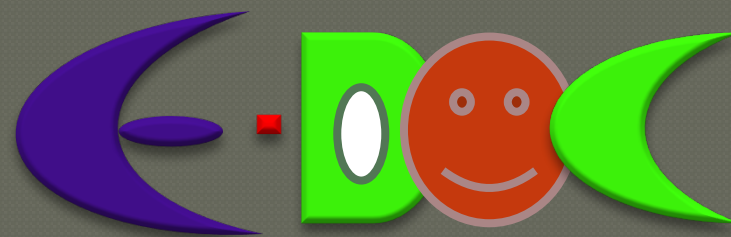

Anugrah Saxena[2008UCP106]
Arpit Bhatnagar [2008UCP108]
Pankaj Yadav   [2008UCP125]

What is E-Doc

E-Doc is an abbreviation for the term **<u>Electronic Doctor</u>**, which means doctor available for the patients on internet.

LOGO :

Need of E-Doc

Need of E-Doc

- Shortage of time
- Neglect of symptoms by people
- Self meditation
  - Most of the people take medicine without consulting doctor which may cause many side effects.
  - Example: recent survey showed that taking crocin without consultation may cause severe Kidney problems.

What we provide

- We provide treatment in all major therapies
  - Allopathy
  - Aruyvedic
  - Homoeopathy
- Online consultancy
- We spread awareness among people

3/5/16

6

… continued

- Disease description
- Their symptoms
- Their cause
- Precautions
- General medicine
- Guidelines (what to eat and what to avoid)

… continued

- We provide an intellectual diagram of human body describing each part, with their details and common diseases related to them.

"One more thing, now patients need not wait in large queues for their turn or return in vain for shortage of time!"

3/5/16

What we use

- Php
- Html
- Java script (for login purpose)
- Mysql

E-Doc ER Diagram

Our relational model

User Login

Username & password are composite key.

Username	Password	email

Allopathy cure

Disease	Medicine1	medicine2

Ayurvedic - cure

Disease	Cause	Solution	Diet	Avoid	Use_it

Work Summary

- Anugrah Saxena –
1. Home page designing (using only html coding)
2. Allopathy portion (html and php coding and linking it to database)
3. Contact us, Introduction and Human Body explaination
4. He is good in html coding and handy with php

- Arpit Bhatnagar –
1. Login and registration page (php coding)
2. Ayurvedic portion (html and php coding and linking them to database)
3. He is good in php coding and linking that to database and works on html too

- Pankaj Yadav
1. Gathered the database for all three Homoeopathy, Allopathy and ayurvedic
2. Homoeopathy portion and all forms in that (php coding and linked them to database)
3. Made the doctor's information page
4. He brought the idea of this wonderful project our mind… which we enlarged for our requirement
